For Immediate Release

infinias®, LLC announces Innotech Cabling Solutions, Inc. to represent infinias throughout Canada

Fishers, Indiana – 30 October, 2009 – infinias, LLC today announced the signing of Innotech Cabling Solutions, Inc. as their manufacturer's representative throughout Canada.

Innotech Cabling Solutions is a division of ICSI, a corporation with its head office based in the province of Ontario, Canada and with offices in Eastern, Central, and Western Canada. Their primary business is a manufacturer's agent, supplying products that are used in commercial office buildings, manufacturing plants, schools, hospitals and government facilities. They supply products, services, and cabling infrastructure for voice, data, video, and security and can arrange for installation by authorized contractors and integrators if required.

"We are excited that Innotech Cabling Solutions has joined our sales team. Their strength in serving the IT market in Canada combined with our Intelli-M product line is a winning combination." said Wayne Jared, President and CEO of infinias, LLC, "We look forward to working together with them to grow the business in Canada."

The Intelli-M product line delivers robust access control over the corporate network using the eIDC a Power over Ethernet single door controller managed by Intelli-M Access, browser based management software.

infinias LLC is a leader in the development and delivery of simple, scalable and secure access control systems for the commercial security market.
