

## For Immediate Release

### **infinias<sup>®</sup>, LLC announces availability of Intelli-M<sup>®</sup> Access v1.2 Software**

Fishers, Indiana – 23 November, 2009 – infinias, LLC today announced the release of Intelli-M Access v1.2 software. The new release of the web-based access control software product includes new features and improvements the user interface.

The list of new features in v1.2 include: Live Muster – lets the user locate Cardholders by Zone; Employee ID Barcode – lets you incorporate barcodes into your Cardholder reports; Multiple Door selection for Updates, Momentary Unlocking and the new Lock Door feature; Lock Door and Lock Zone – allows you to override the current Schedule to lock a Door or Zone; Revert Door and Revert Zone to Schedule – resets the Door or Zone to its current Schedule.

The Intelli-M Access software provides basic access control, photo ID badging, and more while it manages the powerful infinias Ethernet-enabled integrated door controller (eIDC). Intelli-M Access allows users to easily create and manage data, view events and alarms, generate reports, and monitor the status of devices using the simple yet powerful user interface from any device that is capable of displaying a web browser.

The Intelli-M product line delivers robust access control over the corporate network using the eIDC a Power over Ethernet single door controller managed by Intelli-M Access, browser based management software that employs a framework which facilitates its scalability to allow you to easily control the access of a single door up to hundreds of doors at multiple sites.
